PROGRAMME FOR DAY.

Details of Parade, Luncheon, Speaking and Drive.

While no official statement has been given out by the Council Committee on Reception it is possible at this time to give a practically complete and accurate programme in detail of the features of the celebration in honor of Mr. Roosevelt.

The train bearing the President and Mrs. Roosevelt and party, consisting in all of about sixteen people, will reach Richmond at noon on Wednesday. As the train draws near the steam whistles of the city will blow a noisy salute. The party will be sighted first by one of the outlying suburbs, the "alarm," which will be taken up from that point spreading gradually from point to point until the entire city is shrieking out its welcome to the nation's chief.

At the Marine Hotel, where the train will be met by the mayor of the city, the Governor of the State, and the Council Reception Committee. The parade will be in waiting. A committee consisting of Mayor McCarthy, Governor Montague, Senator W. Daniel, Senator Thomas S. Martin and Captain W. H. Curtis, Chairman of the Council Reception Committee, will enter the car of the President and after extending the courtesies of the day will escort him into the station where the full Reception Committee will be lined up to receive him. Governor Montague yesterday wrote Mayor McCarthy that he expected to be at the station to meet the President. Mayor McCarthy will also be there to receive Mrs. Roosevelt and attend her to the executive mansion, where the President's wife will be entertained during the afternoon without participating in the public functions arranged in honor of her husband.

The Parade.

The President will not pass down the front steps of the station. He will enter his carriage at the driveway, will be taken down the driveway to Fifteenth Street and from that point will take his place in the procession.

The parade, under Grand Marshal Morgan R. Mills, will be already formed and will move at once. The utmost care will be exercised. The President's carriage will be drawn by two horses and a special officer will ride on the box seat. The driver will be a picked man. In the center of a hollow square the President will be guarded on all sides and under circumstances will be formation be disarranged. Special officers and a large number of mounted Howitzers will be to the front and rear of the President's carriage. There will be no salutes with firearms of any sort or by fireworks within one mile of the President. The streets and streets along which the President passes will be kept clear of people. Wherever he goes the places to be visited will be examined in advance with the most scrupulous care.
